

## Roo Lumi Light

design *Monica Graffeo*

Grazie alla resina luminescente, Roo Lumi Light assorbe la luce del giorno o quella della lampada al suo interno, per poi rilasciarla nel buio una volta spenta.

*Thanks to its luminescent resin, Roo Lumi Light is able to absorb both the sunlight during the day and internal one provided by a proper light, releasing it once turned off.*

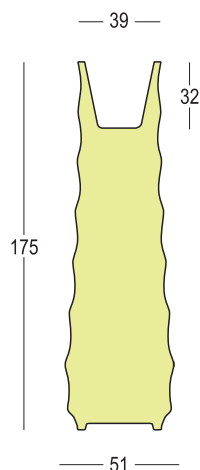

### Roo Lumi Light Indoor

#### Vaso/Vase - Art. 6935/I

Roo Lumi Light predisposto per Kit luce per **Interni**/  
*Roo Lumi Light, intended for Indoor Light Kit*

#### Effetto Speciale/Special Effect

**E6**  
Luminescente
